

## DIGITAL PHOTOGRAPH DATA LOG:

Fill in all of the boxes below and type them into your form in your folder on the iMac.

YOUR NAME:	
SCHOOL:	
TEACHER:	
TOWN:	

\_\_\_\_\_ County

Latitude of photo location	
Longitude of photo location	

Description of location: (street name, river name, property owner, town/county)
---

Where did you get the photo? library? parents? historical society?	
Do you know who took the picture?	
When was the photo taken? What year? What time of year?	

List all of the file names in your folder that are associated with this form and your photos:  
Be sure to include the original scanned photo, your new photo, and this form!!

5 keywords: 

--	--	--	--	--	--

Your keywords will be used to make our digital archive 'searchable'. They should include a location, description of geologic processes (flood) or features you observed (river/mountain/field), and human impact on the landscape (dam/quarry/road).

Summarize what you learned about how the landscape in your photographs has changed over time. Concentrate on the changes that humans have made to the landscape and how the landscape has responded to these changes.
